Facial Radiance

Facial radiance is a special massage technique used to release tension. It lifts the face, opens the eyes, helps define the jaw and cheek bones & soften fine lines. It gives the client a relaxed and more radiant look. The deep relaxation that the technique promotes is working on the meridians of the face & scalp. Meridians are energy channels that run on the surface of the extremities & course deeply through the body, hence the deep internal relaxation. Even though you are working on the head & face, your whole body will benefit from this special massage.

Energy can become blocked due to pent up emotion, mental strain or stress from any sort of physical injury. When energy becomes blocked, the body's natural capacity to heal itself is impaired.

Facial Radiance can unblock those energy meridians. Any method which re-establishes the natural flow of energy in the body is a form of healing. Facial Radiance massage can help relieve headaches, sinus & eye tension. Your skin will look more even in colour as well as softer to the touch. This massage is gentle but gets right into the deeper layers (where creams can't get) of the skin.

The structure of the skin is in 3 layers. The outermost layer is the epidermis. The middle layers and the deepest of the skins 3 layers are connective tissue. Connective tissue is comprised of living cells, collagen and elastic fibers. In the middle layer is where there are many small blood vessels. They carry nourishment to the skin cells in the outmost layer. Tension in the middle layer can press these fine blood vessels and thus preventing the nourishment & oxygen to reach up to the outer layer. These skin cells become starved. The skin dries out and loses its vital appearance. Facial Radiance massage unlocks the tension in the tissue. It rejuvenates the skin. The tissues look more plumped up and the colour looks so much more alive.

This massage includes the face, Scalp and feet.

1 hour 10 minutes \$70.00

Facial Radiance Massage & Skin treatment

1 hour 45 minutes \$130.00

Buy a course of six 1 hour facial Radiance massages

6 x 1 hour 10 minutes \$385.00

When you buy a course of six treatments, pay only \$64 per treatment instead of \$70. The more of these massages you have, the better the results will be.

Cosmetic Pigment Implantation

Cosmetic Pigment Implantation is a very specialised technique used for implanting a vegetable dye into the skin to create eyebrows, eyeliner, beauty spots and lip liner. It is semi permanent and can last on average from 2 - 5 years depending on skin type and colour chosen. Cosmetic Pigment Implantation resists water, wind and perspiration and does not smudge run or wash off.

THE TECHNIQUE

The machine used to perform the pigment implantation is a combination of safety, simplicity and the latest in technological advancement. The unique safety features were designed to comply with current sterilization guidelines set by the centre for the Disease Control Agency of the United States. All needles are disposable. A consultation will take place before we start the treatment. This remarkable process of obtaining your desired colour and shape is explained in detail. Shape and colour must be agreed upon before we begin the treatment. Your signature will be your acceptance. The procedure time varies depending on the area treated.

I use a special machine and needle to implant the line of colour to the skin. This is a delicate undertaking and is performed under the utmost sterile conditions. Anesthetic cream is used to reduce discomfort. So it's not painful. Together we will select the right colours to illuminate your eyes and shape your eyebrows. The result is a natural look that's uniquely yours.

It is necessary to re-treat the area 4 - 6 weeks after the original treatment because the colour fades between 30-50% for most people. Should you prefer a continual darker colour and defined eyebrow shape, you can have more colour implanted after 12 months. It is advisable to have a retouch before the shape changes and the colour completely disappears, otherwise the full price will be charged.

Cosmetic Pigment Implantation is an adventure into a fabulously exciting make-up technique. It is an exploration of your own potential to discover how attractive you really can be simply by trying what you have never tried before.

PRICES:

Full Eyebrows	\$340.00
Upper Eyeline	\$240.00
Lower Eyeline	\$240.00
Upper & Lower Eyeline	\$450.00
Lower Eyeline	\$240.00
Upper Eyeline	\$240.00

Upper & Lower Eyeline	\$180.00
Brows	\$180.00
Upper & Lower Eyeline	\$180.00

The Benefits of Cosmetic Pigment Implantation

- No more pencil.
- It doesn't smudge or wash off.
- Great for sports people who want to look good during exercise.
- Less make-up to apply, suitable for those busy people out there.
- Sparse lashed look fuller and more luscious.
- Women who have sparse thinning eyebrows, or no brows don't need to worry about penciling them in or the evenness of shape and colour anymore.
- Great if you wear glasses and can't see to apply eyebrows and eyeliner.
- Any person who wants to look good 24 hours a day.
